## Empowering your lab with precision and innovation

CAPP brand, knows that modern laboratories demand not just reliable tools, but cutting-edge solutions that ensure accuracy and efficiency in every experiment.

From pipetting solutions to a full range of benchtop equipment, our products are designed to meet the rigorous standards of scientific research, enabling you to focus on what truly matters: advancing your research and achieving reproducible results.

Our catalogue offers a broad selection of high-performance instruments for various laboratory applications, including molecular biology, microbiology, and cell culture. Each product is engineered for ease of use and optimised for seamless integration into your workflow. Whether it's minimising evaporation in PCR, ensuring consistent cell growth, or improving liquid handling accuracy, CAPP is committed to supporting your success in the lab.

Alongside our precision-engineered products, we offer extensive resources and expert guidance. You'll find practical tips and usage recommendations throughout this catalogue, helping you get the most out of every instrument. For more in-depth information, our online knowledge base provides additional resources and technical notes to enhance your laboratory's performance.

Discover how CAPP can elevate your laboratory's precision and productivity with innovative, high-quality solutions. Explore our catalogue and see the difference CAPP can make in your scientific journey.

**We are proud to be your partner in excellence.**

# Certification

We use state-of-the-art energy-efficient technology to manufacture eco-friendly products with minimal environmental impact. Sustainability drives every step, from sourcing green materials to durable designs and recyclable packaging.

As a Green Dot-certified company, we're part of a Europe-wide recycling initiative, making it easy for our German customers to recycle through the national system.

# Sustainability

We model our commitment to sustainable production through our environmentally-friendly manufacturing practices and products.

We have a wide range of sustainable laboratory consumables expertly crafted to help you reach your sustainability goals while practicing excellent science.

PIPETTE TIPS | FILTER TIPS

With 25+ years of expertise, CAPP manufactures pipette tips that exceed the highest standards. Our extensive range meets the diverse needs of research, diagnostics, and analytical labs —perfect for routine tasks or specialised applications.

## Features

- ☑ Made from US FDA virgin polypropylene without any traces of heavy metals (FDA approved 21 CFR)
- ☑ Superb quality, Swiss-made injection molds
- ☑ Certified RNase, DNase, DNA and Pyrogen-free
- ☑ Universal compatibility with most pipette brands on the market
- ☑ Different lengths suitable for different applications within the same volume range
- ☑ Crystal clear, incremental marks for convenience of use
- ☑ Select from EXPellPlus Low Retention or EXPell Standard (both of premium quality)
- ☑ Options of bulk, racked, reloads and Paperbox tips
- ☑ CAPP Filter Tips are consistent in their dimensions, feature controlled pore sizes and provide reliable protection against contamination

Standard tips

EXPellplus low retention tips

# EXPell EXPellPLUS

## BULK PIPETTE TIPS

EXPell and EXPellPlus Bulk Pipette Tips are available in self-standing, self-sealing plastic bags, enabling comfortable usage and compact storage.

### Features

- Ready-to-use tips directly from the bag or for manual refilling into all CAPP racks
- Colour-coded labels enable quick and easy identification of the pipette tip
- Cost-effective option for budget-conscious users
- Made under strict quality standards, certified RNase, DNase, DNA, and Pyrogen-free

Did you know that ordering in bulk reduces plastic use by **665g** per case?

# EX<sup>Pell</sup> PellPLUS

RACKED TIPS

CAPP offers a versatile range of pipette tips in autoclavable racks packed in user-friendly and space-saving dispenser boxes.

#### Features

- Each dispenser box includes 10 rackboxes or 8 rackboxes (for 1000/1250  $\mu$ L tips)
- Colour-coded labels enable quick and easy identification of the pipette tip
- Available with filter, non-filter, sterile and non-sterile tips
- Offered in two options: EX<sup>Pell</sup> Standard and EX<sup>Pell</sup>Plus low-retention quality

Why are our rack boxes black?  
We produce them using 100% of our own recycled plastic - for greater sustainability.

# Cleaner, greener transport – reducing our carbon footprint

Over the past few years, we have worked hard to hone our expertise in sustainable production, striving to reduce our environmental footprint at every stage of our process, and one significant challenge we have successfully addressed is the optimisation of product shipping.

With our revolutionary reload system, we have saved an impressive **65% reduction** in shipping space per consignment, allowing for more efficient transportation and reducing our environmental impact.

Consequently, this has reduced our overall carbon footprint in shipping and other transportation.

Of course, this innovative system also frees up valuable benchtop space in your laboratory!

RELOAD  
SYSTEM

# EXPell

## RELOAD SYSTEM

CAPP's EXPell Pipette Tips Reload System is designed for 10 µL 10/20 µL XL, 200 µL, 300 µL, 1000 µL tips. Depending on the volume of your chosen tip, it contains towers of 5, 8 or 10 racks containing 96 tips each.

The system is extremely easy to use. Take off the tower cover and pick up the rack with tips. Place it into the empty rack. The rack has been refilled with 96 tips.

The EXPell Reload System has multiple benefits:

- Shipping costs are significantly reduced by up to 75% of the packing volume. The tips are packed more compactly than standard racked or bulk tips.
- The tips from the upper rack are partially placed into the tips of the lower plate, resulting in a slim tower, taking much less space than a single box of 10 racked tips.
- CAPP's EXPell Reload System reduces plastic waste. Each rack can be reused multiple times and, apart from the insert plates with tips, there are no further plastic components – only the recyclable cardboard packaging.
- Thanks to the minimal footprint, the towers of the EXPell Reload System take up less space on the benchtop and in the storage room.
- The system is compatible with all CAPP racks of corresponding tip volumes.

Open the refill by sliding it towards the top.

1

2

Prepare an empty rackbox. Remove its original grid.

Pick up the first rack of refill tips and insert into the rackbox. The racks can be reused.

3

4

Once the tips are properly installed in the rackbox, you may close the hinged lid.

# EXPeIIPLUS

PAPERBOX

Make a difference and choose PaperBox for sustainable lab practices. Discover a smarter, greener choice with our PaperBox racks, the perfect eco-friendly alternative to plastic racks.

- ☐ Sustainability meets Reliability ☐ These durable racks ensure secure pipette tip storage while being 100% recyclable
- ☐ Innovative design ☐ Eco-friendly cardboard construction minimises environmental impact without compromising performance
- ☐ Space-saving efficiency ☐ Supplied in compact dispenser towers, reducing bulk transportation needs and cutting emissions
- ☐ Significant plastic savings ☐ Each case of PaperBox Filter tips saves an average of 665g of plastic, helping you protect the planet with every use

## Plastic saved using Paperbox Filter Tips versus Racked tips

INDIVIDUALLY WRAPPED TIPS

Ideal for sensitive applications, these micropipette tips ensure the highest aseptic conditions with unique individual packaging. Each tip guarantees sterility for every pipetting cycle, delivering unmatched performance and purity standards

#### Features

- Available in three volume sizes: 10 µL, 200 µL and 1000 µL
- Certified free from endotoxins, DNase, RNase, Pyrogen, Endotoxin, Human DNA and PCR Inhibitor
- Universally compatible with most pipette brands
- Made with a unique plastic polymer for a hydrophobic inner surface, reducing sample adhesion
- Low-retention properties of 10 and 200 µL tips minimise sample binding, ensuring high accuracy and reproducibility
- Sterile and individually wrapped, with batch numbers and expiration dates printed on each wrap

## MICROCENTRIFUGE TUBES

With EXPell and EXPellSecure, CAPP offers two variants of microcentrifuge tubes. Both manufactured from high-quality raw materials that meet standards of purity and have high mechanical stability and excellent chemical resistance. The EXPellSecure microcentrifuge tubes feature an exclusive design that eliminates the risk of accidental opening or lid detachment during vigorous processes. Hinge orientation nibs and safe click lock ensure leakproof performance and reducing sample loss due to evaporation during incubation or storage.

### Features

- Perfect seal prevents evaporation and ensures sample integrity
- Easy opening/closing with one hand
- Quick volume control thanks to precise graduation marks
- Frosted areas on tube body and lid allow easy sample identification
- For colour coding of the samples, the 1.5 mL EXPellSecure microcentrifuge tubes are also available in colour-coded sales units
- High clarity for excellent sample visibility
- Free of DNase, RNase, human DNA, pyrogen and endotoxin
- For high-performance applications EXPell Microcentrifuge Tubes withstands up to 20000 x g and EXPellSecure Microcentrifuge Tube up to 25000 x g

## CENTRIFUGE TUBES

CAPP Centrifuge Tubes have been carefully designed to meet a wide range of laboratory requirements, ensuring optimum comfort and durability. CAPP provides two sizes of Centrifuge Tubes, 15 and 15 mL to cover the daily need for sample storage and centrifugation in the laboratory.

### Features

- ☑ Leak-proof seal protects against accidental leakage
- ☑ Large ridges on the caps enable comfortable handling and optimum grip, even with gloves on
- ☑ The 3/4 turn closure enables faster operation and allows for one-handed use
- ☑ US FDA Approved Virgin Polypropylene
- ☑ Free of DNase, RNase, human DNA and endotoxin / non cytotoxic, biologically inert, BPA Free
- ☑ Withstand temperatures from -80° to 121°C
- ☑ Easy-to-read graduation marks for precise measurement
- ☑ Large writing area offers ample space for clear labelling and identification
- ☑ High RCF Tolerance ensures reliability in high speed centrifugation:
  - up to 17000 RCF - 15 mL centrifuge tube
  - up to 20000 RCF - 50 mL centrifuge tube
  - up to 7000 RCF - 50 mL centrifuge tube (self-standing)

PCR TUBES

CAPP EXPelli PCR Tubes and PCR Strips, available in 0.1 mL and 0.2 mL sizes, are designed to deliver consistent, reliable PCR results every time. Crafted from premium polypropylene, these consumables are free from contaminants, ensuring the highest purity and precision throughout your PCR experiments, supporting accurate, reproducible results.

#### Features

- Thin-walled design optimised for exceptional PCR performance in a range of thermocyclers
- Frosted and white opacity options enhance signal-to-noise ratios for better PCR results
- Evaporation rate below 5% for reproducible results
- Free of DNase, RNase, DNA, PCR Inhibitor, ATP, Endotoxin
- Frosted flat cap for easy marking
- Made from USP VI polypropylene
- Compatible with standard and real-time PCR routines

Petri Dishes from CAPP are crafted in a contaminant-free cleanroom from premium-quality polystyrene, ensuring top-tier performance. Designed for optimal heat transfer, they maintain the ideal thermal zone for bacterial growth. With excellent optical clarity, they allow for quick and accurate observation of growth patterns, haemolysis, and antibiotic sensitivity.

### Features

- ☐ Supplied in sleeves of 20 petri dishes
- ☐ Available in vented and non-vented formats to optimise airflow for different culture conditions
- ☐ 91.5 mm diameter provides ample space for streak-plates or spread-plates
- ☐ Space-saving stackable design for easy storage in incubators or refrigerators
- ☐ Made from premium-quality polystyrene that meets the specifications of 21 CFR US FDA regulation
- ☐ Manufactured in a contaminant-free environment for assured quality
- ☐ Simple packaging with traceable lot numbers for easy identification
- ☐ Excellent optical properties for accurate observation of cultures
- ☐ Fully compatible with medium throughput carousel-based media preparation systems
- ☐ ISO 24998 Compliance - Raw materials comply with ISO 24998 guidelines, ensuring stringent sterility

CAPP Origami represents a new way of thinking when it comes to reagent reservoirs.

### Features

- ☑ V-shaped bottom prevents bubble formation and ensures retrieval of the last drop of liquid for efficient reagent use
- ☑ Sturdy construction offers a consistently firm and stable reservoir for pipetting
- ☑ Pre-folded design allows easy assembly by simply pushing the sides together
- ☑ Made from durable polypropylene, ensuring reliability and reusability
- ☑ Shipped and stored as flat sheets, saving space and reducing shipping costs
- ☑ Reservoirs are available as 30 mL reservoirs for 8/16 channel pipettes and 40 mL reservoirs for 12 channel pipettes
- ☑ Eco-friendly and space-saving, optimising storage and reducing environmental impact
- ☑ Increases workspace efficiency by saving benchtop space and lowering costs

Take flat reservoir from pack

Push long sides towards centre

Fold end triangles to assemble

With CAPP's sterile, disposable reagent reservoirs, you gain more efficiency in your manual liquid handling workflows. They make quick work of liquid transfer, whether you are working on ELISA, PCR, or any other suitable protocol.

### Features

- ☑ Made from a unique blend of virgin polystyrene for high chemical stability and broad reagent compatibility
- ☑ Angled interior design minimises dead volume, reducing reagent waste
- ☑ Accurate graduations on interior slopes provide clear visibility from any angle
- ☑ Four pour spouts for easy, spill-free liquid discharge from all corners
- ☑ Stackable ridge design saves storage space, with a base lip for easy separation
- ☑ Supplied in two different packaging configurations: bulk or individually wrapped, sterile
- ☑ Available in 3 different sizes:
  - ☑ 10 mL, V-shaped - Ideal for 8- and 16-channel pipettes
  - ☑ 25 mL, Flat Bottom - works best with the CAPP Aero 384-well multichannel pipettes (32, 48 and 64 channel pipettes)
  - ☑ 50 mL, V-shaped Ideal for use with 12-channel pipettes

CA40525C	CAPPSharp reagent reservoir 50 mL, bulk, 5x100 pcs.
CA40526C	CAPPSharp reagent reservoir 50 mL, individually wrapped, sterile, 50 pcs.

CRYO TUBES

CAPP offers EXPell Cryo Tubes in 5 sizes: 0.5 mL, 1.0 mL, 2.0 mL, 4.0 mL and 5.0 mL. Focusing on the best user experience and convenience, the quick seal closure with external threads enables easy tightening or removal with a half-turn.

These are one of very few cryo tubes to have external threads and star feet, allowing storage in 10x10 cryo boxes and saving up to 23% space compared to other standard options on the market. Made from specially formulated polypropylene, both the caps and tubes have matching expansion coefficients, ensuring leakproof performance at various temperatures.

EXPell Cryo Tubes are sterile ideal for storage in the vapour phase of liquid nitrogen.

**Coloured cap inserts.** Available in red, blue, green, white and yellow. Made of PP for easy recognition

Lip seal cap design ensures that the tubes are **leakproof**

High-quality graduation marks and writing area for **easy sample identification**

**Super straight design fits** into both 9x9 and 10x10 cryo boxes. No surface transition between the tube and the cap for **minimal risk of contamination during storage**

External thread super straight design gives **up to 23% extra storage capacity** when used with the 10x10 cryo boxes

**Certified Purity** – free of RNase, DNase, human DNA, PCR-Inhibitors, Pyrogens and ATP

**Quick seal design for single-handed operation.** Tighten or open it with only half a turn!

**Star-foot bottom for better stability and operation** when stored on selected cryo boxes

## Ordering Information

### EXPell Cryo Tubes

Cat. No.	Description
5040500C	EXPell Cryo Tube 0,5 mL, sterile, w/o print, bulk, case with 10x100 pcs (tubes) and 1x1000 pcs (caps)
5041000C	EXPell Cryo Tube 1.0 mL, 10x100 pcs. sterile
5042000C	EXPell Cryo Tube 2.0 mL, 10x100 pcs. sterile
5044000C	EXPell Cryo Tube 4.0 mL, 5x100 pcs. sterile
5045000C	EXPell Cryo Tube 5.0 mL, 5x100 pcs. sterile

### Coloured Cap Inserts for EXPell Cryo Tubes

Cat. No.	Description
504R000C	Red Cap Insert for EXPell Cryo Tube, 1x500 pcs.
504B000C	Blue Cap Insert for EXPell Cryo Tube, 1x500 pcs.
504G000C	Green Cap Insert for EXPell Cryo Tube, 1x500 pcs.
504W000C	White Cap Insert for EXPell Cryo Tube, 1x500 pcs.
504Y000C	Yellow Cap Insert for EXPell Cryo Tube, 1x500 pcs.

CAPP's plastic EXPell Cryo Boxes are made from highly durable polypropylene and are suitable both for freezing at  $-90^{\circ}\text{C}$  and autoclaving at  $+121^{\circ}\text{C}$  for 20 minutes.

#### Features

- Space-saving design – 9x9 cryo boxes increasing storage capacity
- Multiple sizes – 9x9 cryo boxes are available in three heights
- Easy sample identification – Numerical coding on the lid and base for quick and accurate tube tracking
- Vent holes at the bottom of each box rapidly increases freezing times and also allow the drainage of liquids
- Durable construction – made of high-quality polypropylene, suitable for storage at  $-90^{\circ}\text{C}$  and autoclaving at  $+121^{\circ}\text{C}$
- One-handed operation – star-foot lock design allows tube opening without removing it from the box
- User-friendly handling – slanted edges ensure proper lid alignment and simplify use

## Ordering Information

Cat. No.	Description
5042022C	EXPell Plastic Cryo Box, 9x9 cell grid for 1,0- 2,0 mL cryovials, 130 x 130 x 50 mm, case of 36 pcs.
5044020C	EXPell Plastic Cryo Box, 9x9 cell grid for 4,0 mL cryovials, 130 x 130 x 80 mm, case of 36 pcs.
5045020C	EXPell Plastic Cryo Box, 9x9 cell grid for 5,0 mL cryovials, 130 x 130 x 90 mm, case of 36 pcs.
5040510C	EXPell Cryo Box Plastic, clear, 10x10, 0.5 mL Cryo Tubes, 130 x 130 x 32 mm, Case of 36 pcs
5041010C	EXPell Cryo Box Plastic, clear, 10x10, 1.0 mL Cryo Tubes, 130 x 130 x 40 mm, Case of 36 pcs
5042010C	EXPell Cryo Box Plastic, clear, 10x10, 2.0 mL Cryo Tubes, 130 x 130 x 50 mm, Case of 36 pcs
5044010C	EXPell Cryo Box Plastic, clear, 10x10, 4.0 mL Cryo Tubes, 130 x 130 x 80 mm, Case of 36 pcs
5045010C	EXPell Cryo Box Plastic, clear, 10x10, 5.0 mL Cryo Tubes, 130 x 130 x 90 mm, Case of 36 pcs

CAPP's EXPell Cryo Boxes are crafted from high-quality, eco-friendly cardboard, and offer a sustainable alternative to traditional plastic storage solutions. Designed with a focus on reducing environmental impact, they are available in two grid configurations: 9x9 (81 cells) and 10x10 (100 cells), ensuring flexible and efficient storage options while supporting your commitment to a greener future.

### Features

- ☑ Eco-friendly and disposable, offering a sustainable cryo storage solution
- ☑ Temperature-resistant and recyclable for reliable performance and environmental sustainability
- ☑ Constructed with a water-repellent finish for added durability
- ☑ Write-on surface for easy sample identification and retrieval
- ☑ Removable grid provides flexibility for diverse storage needs
- ☑ Available in 9x9 (81 cells) and 10x10 (100 cells) grid options
- ☑ Chemically-resistant to alcohols and mild organic solvents

With our cryo boxes you don't have to sacrifice quality to save the environment.

Both are important!

9x9 configuration

10x10 configuration

## SEROLOGICAL PIPETTES

CAPPHarmony Serological Pipettes ensure accurate liquid handling with precise graduations, colour-coded heads, and filter plugs for contamination-free work. Made from USP CLASS VI polystyrene, they are durable, versatile, and compatible with various pipettors. Perfect for reliable results in any lab setup.

### Features

- Designed for accurate and rapid fluid dispensing, these polystyrene pipettes are sterile, DNase/RNase free, non-pyrogenic and filtered (polyolefin (PO) filter) for a variety of liquid handling applications
- Clear and precise graduation achieves an accuracy of  $\pm 2\%$  of the total volume
- Dual graduations simplifies the identification of pipetting volumes, the negative graduations increase the pipette's capacity and accommodate larger volume needs
- The pipettes are supplied individually wrapped in an easy-to-open, fibre-free, colour-coded paper/plastic combination
- Each pipette comes with an effective filter barrier that prevents the sample, aerosols and water vapour from entering the pipette and protects the sample from contamination by impurities within the pipette
- The uniform mouth piece fits all major pipettors and is colour-coded for easy identification

## COMPATIBILITY CHART

		Cat. No.		CAPP EXPell Filter Tips																																										
Description				5130030C	5131030C	5130061C	5131061C	5130062C	5131062C	5130066C	5131066C	5130090C	5131090C	5130115C	5130150C	5131150C	5130123C	CAPP EXPell and EXPellPlus individually wrapped Pipette Tips											CAPP EXPell and EXPellPlus Filter Tips in PaperBox Racks																	
EXPell 10 µL, w/ filter, clear, sterile																		EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																	
EXPell 10 µL, w/ filter, clear																			EXPellPlus 200 µL, clear, sterile, indiv. wrapped											EXPell 1000 µL, clear, sterile, indiv. wrapped																
EXPell 10 µL XL, extra narrow, w/ filter, clear, sterile																			EXPellPlus 20 µL, w/ filter, clear, sterile											EXPellPlus 20 µL, w/ filter, clear, sterile																
EXPell 10 µL XL, extra narrow, w/ filter, clear																			EXPellPlus 100 µL, w/ filter, clear, sterile											EXPellPlus 100 µL, w/ filter, clear, sterile																
EXPell 20 µL, w/ filter, clear, sterile																			EXPellPlus 200 µL, w/ filter, clear, sterile											EXPellPlus 200 µL, w/ filter, clear, sterile																
EXPell 20 µL, w/ filter, clear																			EXPellPlus 300 µL, w/ filter, clear, sterile											EXPellPlus 300 µL, w/ filter, clear, sterile																
EXPell 100 µL, w/ filter, clear, sterile																			EXPell 1000 µL, w/ filter, clear, sterile											EXPell 1000 µL, w/ filter, clear, sterile																
EXPell 100 µL, w/ filter, clear																			EXPell 1250 µL XL, w/ filter, clear, sterile											EXPell 1250 µL XL, w/ filter, clear, sterile																
EXPell 200 µL, w/ filter, clear, sterile																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
EXPell 200 µL, w/ filter, clear																			EXPellPlus 200 µL, clear, sterile, indiv. wrapped											EXPell 1000 µL, clear, sterile, indiv. wrapped																
EXPell 300µL, sterile, w/ filter, clear																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
EXPell 1000 µL, w/ filter, clear, sterile																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
EXPell 1000 µL, w/ filter, clear																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
EXPell 1250 µL XL, w/ filter, clear, sterile																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped																
																			EXPellPlus 10 µL, clear, sterile, indiv. wrapped											EXPellPlus 10 µL, clear, sterile, indiv. wrapped
